

IN CITY COUNCIL

ARTICLE II. DOMESTICATED CHICKENS

Purpose.

Whereas, the keeping of chickens in the city supports a local, sustainable food system by providing an affordable, nutritious source of protein through fresh eggs. The keeping of chickens also provide free, quality, nitrogen-rich fertilizer; chemical-free pest control; animal companionship and pleasure; weed control; and less noise, mess and expense than dogs and cats.

The purpose of this article is to provide standards for the keeping of domesticated chickens. It is intended to enable residents to keep a small number of female chickens on a non-commercial basis while limiting the potential adverse impacts on the surrounding neighborhood.
